## S.L.Immersion's founder

In 2012, I set up S.L.Immersion because I wanted to offer more authentic, intensive experiences that are different to other language schools. As a teacher, I started to welcome students at my house to live and study the real French today with me. As my French courses in Provence became known and very popular due to the success with students, I expanded the offers in France with the help of local teachers, passionate about their region and the French language.

I will be happy to answer your questions and organise the experience that suits you the best. We look forward to teaching you French in immersion and/or online and helping you achieve your language goals.
